PROFESSIONAL EXPERIENCE

DATA ANALYTICS INTERNSHIP | OXFORD UNIVERSITY | MAY 2025 – JUNE 2025

- I contacted a professor in Oxford who was investigating the use of climate data as a predictor for heating and cooling energy usage. The internship took place in the 'Zero Institute', heavily focused on decarbonization. Here I did a preliminary project to learn the basics before helping with a real project.

INTERNSHIP | MAGO EQUITY SGEIC | SEPTEMBER 2024 – MAY 2025

- My responsibilities included updating the database for deal sourcing, producing reports on several potential acquisitions and three statements models. The fund's universe was small and medium companies with a focus on sustainability and ESG goals.

ANALYST IN COMILLAS INVESTMENT CLUB | CIC | SEPTIEMBRE 2023 – PRESENT

- After joining the CIC in my first year, I conducted several company analyses. Among these was Airbus, which we presented at a national Stock Pitch competition organized by SORA CAPITAL, where we achieved second place.

EDUCATION

BBA + BUSINESS ANALYTICS | IN PROGRESS | ICAFE

- Strong interest in finance, data analysis, machine learning, and accounting.
- Dean's list: Macroeconomics, Statistics, Regression models and Finance.

ERASMUS EXCHANGE | AUGUST – DECEMBER 2025 | COPENHAGEN BUSINESS SCHOOL

- Just beginning my stay in the CBS, one of the top Universities in the world in management and finance.

ERASMUS+ TO NORTHERN MACEDONIA | APRIL 2022 | SAN JOSÉ SSCC SCHOOL SEVILLE

- While in high school, I was selected to participate in a project on sustainable cities and the UN Sustainable Development Goals. We later took part in several exchanges with other schools in Luxembourg, Portugal, Italy, Poland, and N. Macedonia. I traveled to the latter to present our work.

DEEP LEARNING SPECIALIZATION | AUGUST 2024 | DEEPLARNING.AI

- This course, which I completed over the summer, helped me understand and program neural networks, convolutional networks, and LLMs in python.

VOLUNTEER IN 'CALOR Y CAFÉ' | 2023 | COLEGIO SAN JOSE SSCC, SEVILLE

- I volunteered in this initiative, which focused on providing meals, essential supplies and conversation to vulnerable individuals experiencing homelessness.

ABILITIES

FINANCIAL MODELS

- Through the Investment Club, University, and internship at the Private Equity fund, I had the opportunity to create various financial models, gaining familiarity with DCF, LBO, and comparable analysis models.

PERSONAL AND PROFESSIONAL SKILLS

- At University, I took a course with the same name, where I practiced skills such as time management, proactivity, active listening, and even mindfulness, among others.

COMMUNICATION

- I was part of my residence's Debate Club, where I participated in three tournaments, one as a judge and two as a debater, in both BP and Academic formats. Furthermore, through the University's curriculum we are coursing some subjects part of a communication certificate issued by ICADE.

DATA ANALYSIS

- The Business Analytics degree is very comprehensive, providing many tools for data handling and analysis. Here I learned to use python, SQL, MongoDB, Excel, GAMS, R, etc.

ARTIFICIAL INTELLIGENCE

- Through the Machine Learning course and self-practice, I have learned the inner workings of AI, enabling me to make optimal use of it.

LEARNING TO LEARN

- I love learning, whether it is a course on a specific subject or a book about any specific topic related (or not) to business, marketing or investments.

LANGUAGES

SPANISH – NATIVE LANGUAGE

ENGLISH – FLUENT LEVEL (C2)

- Cambridge Proficiency Grade A
- 110/120 Toefl Ibt test

FRENCH – BASIC LEVEL
